

PLANT *with a* PLAN

HAVE YOU EVER cleaned up the leaves from your neighbor's over-sized and poorly placed Globe Willow, or watched the sidewalk buckle under the pressing power of a giant Sycamore? Then you know the value of a professional landscape design. "What kind of exposure does a Japanese Maple need and where do I plant mine so it will thrive?" is the type of question best answered by a professional master plan for your landscape.

You have landscape needs — Wasatch Shadows creates your solution.

Moving into a newly built home? Restructuring a poorly planted yard? Creating a little piece of heaven on your ½ acre near the freeway? A professional landscape design is the first step to success.

Wasatch Shadows professional designers create an overall plan so that every plant, tree and shrub will compliment your home and landscape. Your professional landscape design guides you in avoiding costly and discouraging mistakes often made by weekend gardeners. Planting to your plan is fun! Year after year you work with confidence, knowing that your efforts are producing an atmosphere designed specifically for you and your lifestyle.

Your green thumb (or partially green thumb) combined with a professional landscape design from Wasatch Shadows just makes sense.

WHAT WASATCH SHADOWS WILL DO FOR YOU

- A designer will schedule a time to meet you at your home to discuss your ideas. Your likes and dislikes, personality and desires create the foundation for your custom landscape design.
- A designer will consult with you to review and approve your landscape design.
- A designer will provide a scaled landscape design indicating planting beds, plants and hardscape, specifying the location of each in your landscape.

WHAT CAN YOU DO TO MAKE IT HAPPEN

- Complete the APPLICATION FOR DESIGN SERVICES with the appropriate payment:
\$299 for a full yard up to 1/3 acre.
\$249 for the front or back yard.
(additional charge for larger properties)
- Provide a scaled plot plan of permanent construction details (house, sidewalks, patios, property line dimensions, etc.) If a plot plan is not available, Wasatch Shadows can create one for an additional \$50. ***Please inform the designer of this need at the time of scheduling.***

Increase the Value of your Home

Not only will your landscape be more beautiful, but with a professional design your home can become more valuable, as much as 15% more according to a Weyerhaeuser Corporation survey of home buyers. You get your money back when you invest in professional landscaping. Money Magazine reports that you can expect to recover 100-200% of the landscaping costs when you sell - a truly *worthwhile investment.*
